

Grundy County Fair Associate Membership

Associate Members of the Grundy County Fair are people interested in volunteering to help with activities during the yearly fair and/or serve on committees that help plan events during fair.

Members can do as little or as much as they would like with planning, assisting at and if interested, running events. Associate Members are volunteers but are not members of the Fair Board.

A roster of Associate Members with contact information shall be kept. A Fair Board member shall be appointed to manage the Associate Member list and will be the main contact for the Associate Members. When the board, board members or committee chairpersons decide that extra help is needed for an event, either planning or running, an email or text message will be sent out asking for help from the Associate Members.

Members may attend board meetings but may only address subjects in which they are asked to respond to by the board. Associate Members have no voting rights during board meetings but retain their voting rights during meetings of the body of the Grundy County Agricultural Society. Associate Members will be under the direction of the Fair Board.

Associate Membership shall be renewed annually and the membership shall be reviewed annually by a committee appointed by the Fair Board. To become an Associate Member or to be taken off the Associate Member list a person needs to, in writing, request membership or removal. This may be done by email if necessary but it is preferred in writing with a signature of person requesting.
